

NEW COURSE

Laboratory of Fibre and Cellulose Technology, Åbo Akademi

Three-day intensive course October 24th-26th, 2011

Biomass Pretreatments and Fractionation Technology

(4 credits)

The basic concepts of Biomass technology

- ✓ Biomass (wood, non-wood) chemistry and physics
- ✓ Biomass pretreatments
- ✓ Fractionation of biomass and dispersions

Practical applications of biomass fractionation

- ✓ Fibres from biomass by kraft pulping and organosolv processes
- ✓ Biopolymers from biomass
- ✓ Biomolecules from biomass

BIOREGS

Kick-off
Monday 24.10
at 10.15
