Building a sustainable student community

STUDENT LIFE AT UNI! TOP TIPS

Life at uni is quite different from being a student at school or college. Throughout reading this little guide, you'll gain an insight on what it's like, with top tips from the bottom of a fellow student's heart.

So read on, my dear pilgrims - bask in the knowledge!

Tip 1: You can't just sit back & expect to be spoon fed at uni. You have to be *proactive*.

Tip 2: Don't leave work until the last minute. Uni is fast paced. Be *organised*. Make calendars and to-do lists.

Tip 3: Always keep a notebook & pen handy to write down any random ideas. It's also a good way to stay awake in lectures.

Tip 4: Have an *open mind*. Ask as many questions as you can & try not to dismiss ANY opportunities that come your way.

Tip 5: *Chit chat* / *gip yap*. **Socialize**. The more contacts you make, the easier life is. If you're shy, act confident 'til it becomes the norm.
