

DatPRO: Data Coordinator
Type: Fulltime, fixed-term
Working hours: 37,5 h / week
Suitable background: End of studies - graduated
Location: Helsinki
Beginning date: As soon as possible
Application deadline: As soon as possible.

We make digitalization happen. Modern business is more and more dependent on data and the processes related to it. These are transformative changes, which affect the company's businesses. Besides the quality of traditional data, the models of processing data and core information systems, we work with different business processes and information management development to solve these changes.

As an IT-multitalent you will be a part of large-scale change projects, where you will combine different processes across national borders. The project focuses on introduction of new systems and eliminating the old ones. The person who we are looking for participates in data migration, data management as well as in data maintenance. In practice the job will be very concrete: source system data analysis, adjusting it according to the users and acquiring the missing data with the company's representatives. We require collaboration skills within a wide stakeholder network and attention to details. We also hope that you are social, proactive and precise. We want you to be able to roll up your sleeves and take action!

We are looking for:

- Previous experience in data migration
- Strong MS Office –skills, especially in Excel
- Good project management and teamwork skills
- Fluent Finnish and English language skills

We consider as a plus:

- Relevant studies
- Previous experience in managing data
- Basic knowledge of ERP systems
- Skills in Swedish language

We offer:

- An opportunity to work with the leading edge in modern data
- Interesting working environment
- An opportunity to move forward in your career and to get a permanent position

Interested? Please submit your application letter and CV as soon as possible here: <https://apply.atalent.fi/datpro-data-coordinator-12-2016>. Please mention your salary request and possible starting date in your application documents.
