

Goals for this 2-
year period

Establishing community for the doctoral students

Tutoring and orientation

- Standardise orientation programs
- Implement tutoring to doctoral student at minor form
- Compulsory retreats for the students?

Student organisations for each campus?

- Directly or indirectly connected with HYVÄT?
- Mainly for the local promotion of interests at first

Establishing community for the doctoral students

Other major goal: Unionise doctoral students

- I.e. increase membership of the labour unions

Ombudsmans for the doctoral students?

- I.e. someone who can help students in case of conflicts with a supervisor etc.
- Question about resources...

University pedagogics and supervisor training

Crash course for the doctoral students

- New senior lectures would be required

Compulsory training for supervisors

- I.e. what to do and not do when supervising

These are mainly resource questions

- The board more or less agrees that these are needed
- Needs some lobbying at higher levels of administration
 - Some plans for infiltration being planned

Grant researcher status improvements

Minor improvements also needed

- Free printing
- Same rights as employees in case of softwares, administrative rights etc.
- Seek to remove room fee if enough political capital

Major fund grants into paid positions?

- I.e. Kone, Cultural foundation etc
- Currently being debated on how to do this

Healthcare system extension for the grant researches

- Major long-term goal
- See if we can get labour unions to back this
- Maybe to start with a right to visit a doctor and psychologist at Mehiläinen for free once per year
 - Referrals to speed up public healthcare proceedings
