

Kummitustalopeli B

The maze consists of a path of windows containing math problems. The path starts at a ghost in a window at the top, goes left through five windows, then down a vertical column of eight windows, then right through four windows, and finally up a vertical column of five windows to end at a ghost in a window at the top.

The math problems in the windows are:

- Top row (left to right): $5 + \square = 8$, $8 + \square = 9$, $7 + \square = 9$, $\square + 6 = 7$, $5 + \square = 7$
- Left vertical column (top to bottom): $\square + 5 = 6$, $6 + \square = 8$, $\square + 7 = 8$, $\square + 8 = 9$, $6 + \square = 9$, $\square + 5 = 7$, $7 + \square = 8$
- Right vertical column (top to bottom): $5 + \square = 8$, $7 + \square = 9$, $\square + 8 = 9$, $\square + 6 = 7$, $5 + \square = 7$, $\square + 7 = 8$, $\square + 5 = 6$, $\square + 5 = 7$
- Bottom row (left to right): $8 + \square = 9$, $6 + \square = 9$, $7 + \square = 8$, $6 + \square = 8$

At the bottom left, there are two footprints labeled "Pelaaja 1" and "Pelaaja 2".
