

PATHWAY teacher activities in Open Learning Environments in Finland

More than 150 teachers, teacher students, researchers, and science education pedagogists from Finland, Latvia, and Estonia attended the hand-on teacher training activities in Heureka, the Finnish Science Centre, Vantaa in 28th Nov 2013.

In addition of the lectures and seminars related to Inquiry Based Science Education and teacher professional development, the practical activities in laboratories, demonstration workshops, planetarium, digital ScienceOnSphere, and the special exhibition Facing MARS (<http://www.heureka.fi/en/facing-mars>).

The successful concept of “Pre-work” – Visit to Science Centre – Post-tasks of PATHWAY developed in Finland will be disseminated and started as sustainable best practice also in Tallinn, Estonia and Riga, Latvia, as the result of PATHWAY dissemination.
